

## ITECH Solutions

**ITECH Solutions** is a technology firm established in 2005 by Brian Weiss and Forrest Hatfield. We were founded on the principle of providing professional, high-quality solutions to our clients.

**ITECH Solutions** delivers web development and managed IT services concentrated on value and cost effectiveness. We do not overcharge for our services in order to try to create a higher perceived value or to take advantage of extra funds you may have in your budget. We are not successful unless your business is successful, and we know overspending for products and services hinders the success of any business. Our contracts are simplified and easy to understand with no hidden charges or catches. We don't lock you into any overpriced recurring service charges or proprietary software.

### **ITECH Solutions Managed IT Services**

Inadequate management and maintenance of your IT infrastructure can very easily decrease your productivity and potential profit. No matter what size budget you may have, with ITECH Solutions Managed IT Services we can show you ways to save money and increase funds to help apply cost effective upgrades to your IT infrastructure, increasing productivity and profits.

### **ITECH Solutions Web Development Services**

An ineffective or poorly-designed website can cost you more than just money – it can also harm the professionalism, perception and reputation of your company. ITECH Solutions ensures that your business is getting the most out of its website(s). We specialize in creating effective, standard compliant e-commerce and lead generation websites that deliver results.

“We couldn't be happier with ITECH Solutions web development and IT services. ITECH Solutions helped us create the website of our dreams. We told them what we wanted, and they made it happen. Whether we need them in the early morning or late afternoon they are always responsive. Thank you, I-TECH!”
